Bearing capacity:	150kg
Package size:	1660x650x650mm
Product net weight:	70kg

Suitable for beauty clubs, massage and acupuncture stores, tattoo and embroidery stores, hand and foot care stores, micro-plastic surgery clinics and hospitals, etc.

Design

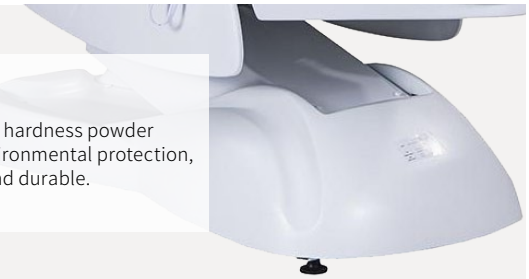
An electric recliner with three sections (Back plate, hip plate, leg plate), designed based on ergonomic principles. It is used as an auxiliary equipment for main examination and diagnosis and treatment equipment. The structure is user-friendly, allowing patients with limited mobility to sit comfortably and making it convenient for doctors to perform examination operations from different directions.

Base

High-quality metal structure, good stability, "z" type base, to reduce the sense of difference in lifting and lowering, the experience is more comfortable.

Lacquer

Surface high hardness powder coating, environmental protection, economic and durable.



Ectric function

Using Jiechang motor, with EU CE certification, strong thrust, smooth operation, low noise, reliable performance. Number of motors: 3pcs.

Hand controller

Intelligent hand controller can adjust the bed height, backrest, leg angle with one key, convenient operation.

Handrest

Stretchable headrest for people of different heights. Detachable headrest with breathing hole to fit the face. Headrest expansion distance: 25cm.

Seat

Using high rebound sponge, strong rebound is not easy to deform, sponge density: 55-60KG/m^3; high-quality PVC leather, soft and comfortable, breathable, wear-resistant and dirt-resistant; colors are available, MOQ: 5pcs.

Lie flat position

180-degree reclining, dual-purpose bed-chair, highly practical.

Handrail

The armrest can be manually flipped back 180° to ensure that the patient's arms can safely relax and stretch naturally, providing a safe and comfortable environment for the patient.
